More jobs.
Zero effort.

Exclusive inbound leads for trade businesses across New Zealand. Google Ads, a landing page, call tracking and your own client portal. All run for you.

$1,500 + GST a month

One trade per area

Live within 24 hours

Every lead is yours alone

LeadHiveNZ · Joe Ingram

hello@leadhivenz.com

Word of mouth is great. Until it goes quiet.

Most trade businesses run on referrals. That works until the week it doesn't, and you can't plan a business around a phone that rings when it feels like it.

Referrals dry up

You can't control when they come or how many. One slow month puts pressure on everything else.

No predictability

You don't know what next month looks like. Planning, hiring and growing becomes guesswork.

Competitors are winning online

While you wait for the phone to ring, the business down the road is at the top of Google taking the job.

WHAT YOU ACTUALLY WANT

Your phone ringing with people in your area who need your trade right now.

Nothing to learn. Nothing to manage. Just answer the phone and quote the job.

We put your business at the top of Google when people need you most.

Four steps. You only touch the last one.

STEP 1

Someone needs a trade urgently

They search Google for an emergency plumber, electrician or builder in their suburb. Right now.

01

STEP 2

Your ad is the first thing they see

We run Google Search Ads targeted to your area and your jobs. Your business sits at the top.

02

STEP 3

They land on your page

A fast, mobile-first landing page built for your trade and your area. Not a shared directory.

03

STEP 4

They call you directly

The call goes straight to your mobile. Tracked, recorded and logged in your portal. Exclusive. Real. Ready to book.

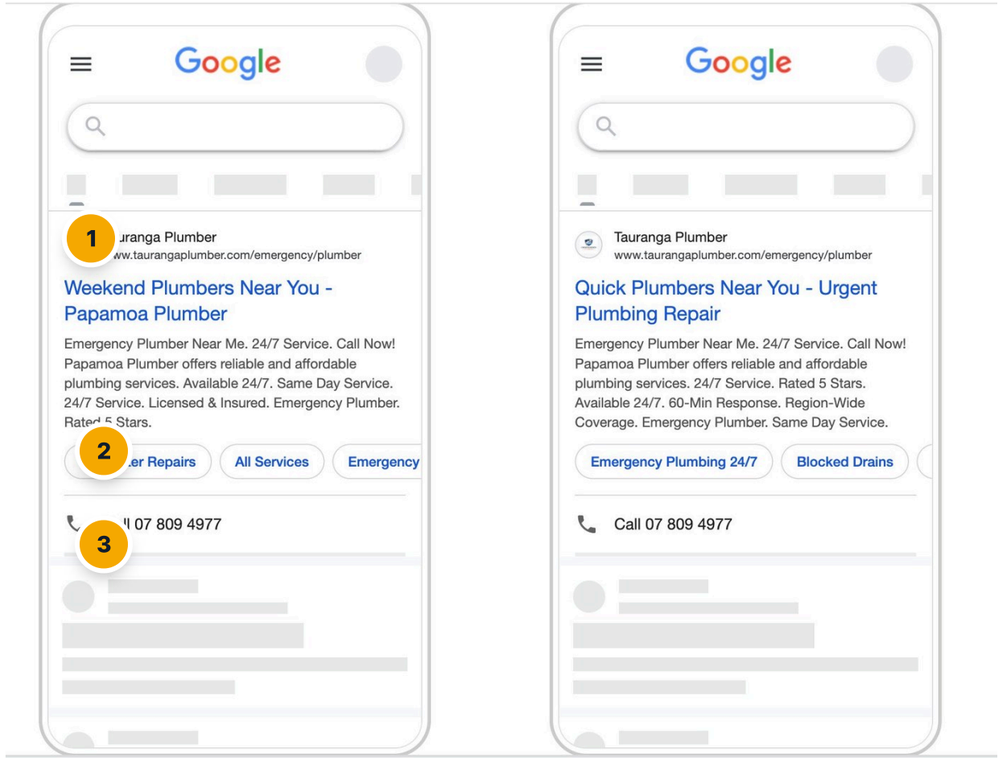

04

Google Search Ads | Dedicated landing page | Call tracking + recordings | Client portal | Monthly report from Joe

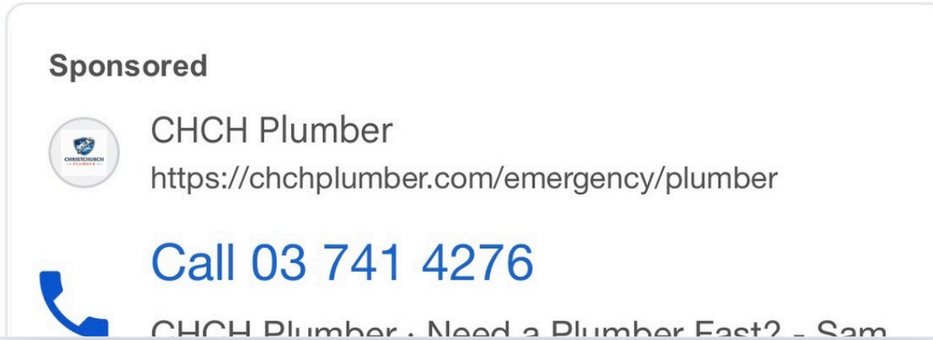

Your ads, running 24/7, at the top of Google.

We target the exact searches people make at the moment they need help. Emergency intent only, no tyre-kickers.

HOW YOUR AD LOOKS ON A PHONE

LIVE AD · CHRISTCHURCH PLUMBER

1 Your business, first on the page
Above the map, above the directories, above the big franchises.

2 Job-specific sitelinks
Hot water, blocked drains, emergency callouts. Whatever you want more of.

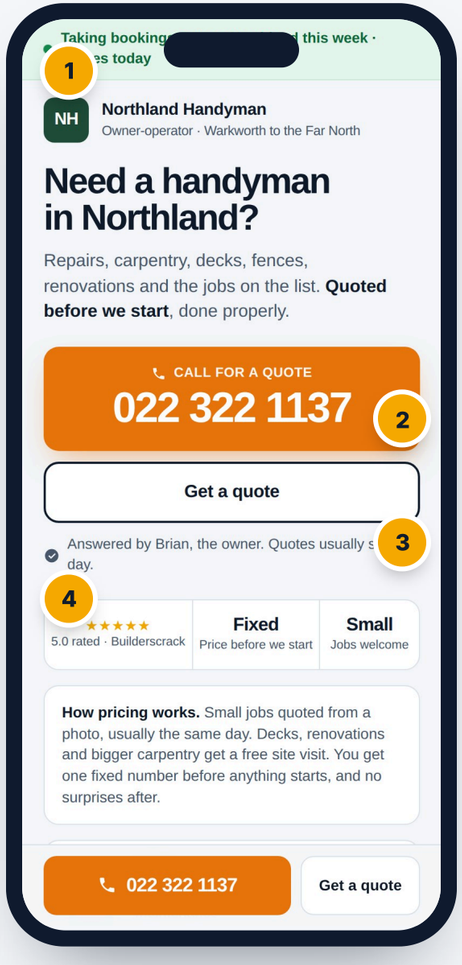

3 Tap to call, straight to your mobile
Most leads never see the page. They tap the number and ring you.

SEARCHES WE TARGET

"emergency plumber near me" · "burst pipe Tauranga" · "hot water repair" · "blocked drain"

A landing page built to convert. Built for the panic moment.

Every partner gets the same proven template with their name, number, area and jobs. Mobile-first, one tap to call, and a quote form for the planned jobs.

1 Live status line
Knows your hours. "Taking bookings today" in the day, "message now, reply first thing" after hours.

2 One tap to call
Big call button, no forms, no waiting. Your tracking number swaps in automatically.

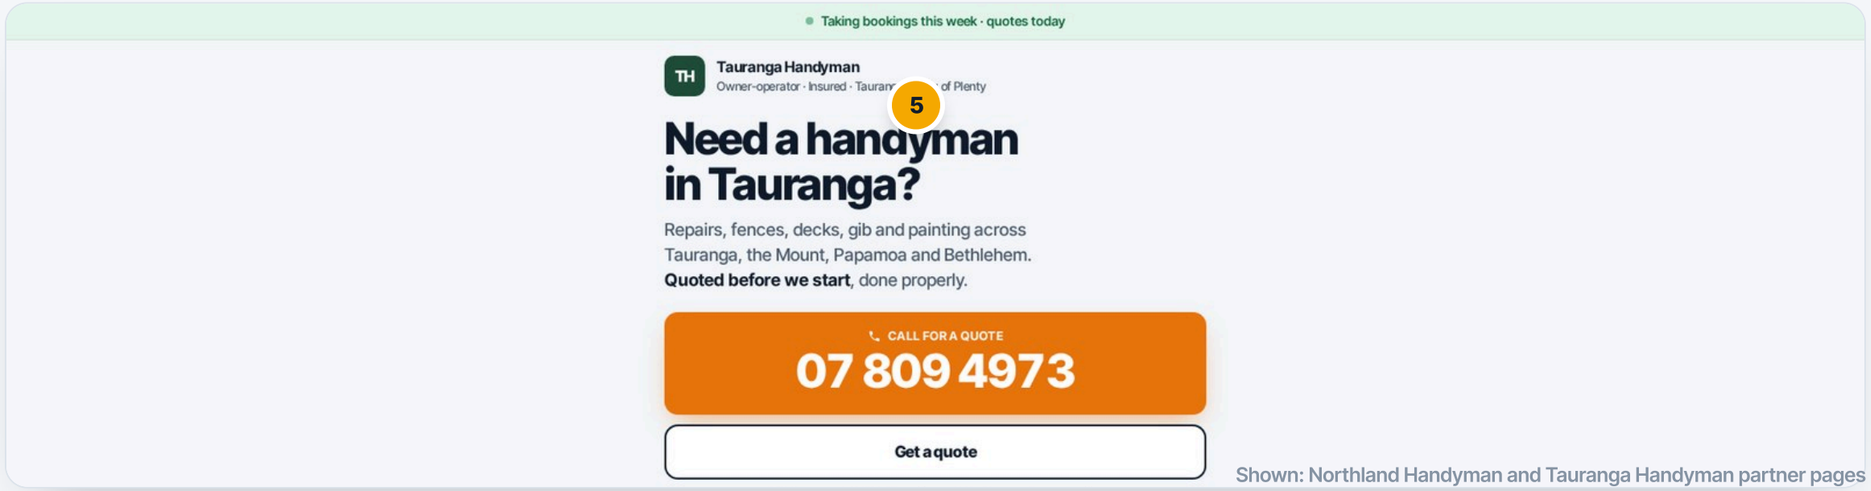

3 Get a quote form
Planned jobs come through as web enquiries. They email you and land in your portal.

4 Trust strip
Your rating, your promise, your pricing. Whatever makes people pick you over the next result.

5 Your name, your number
"Answered by Brian, the owner." A real person, not a call centre, and every lead goes to your mobile.

6 A page per job type
Blocked drains, hot water, decks, renovations. Each ad group lands on its own page.

THE SAME PAGE ON DESKTOP

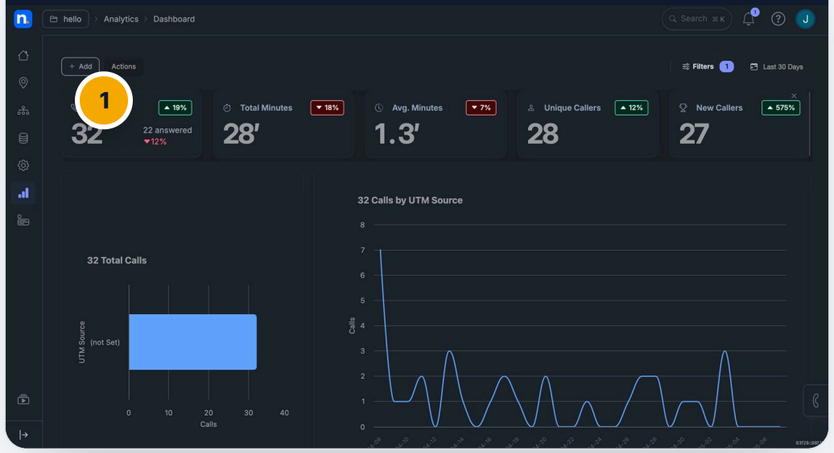

Shown: Northland Handyman and Tauranga Handyman partner pages

Every call tracked. Every call recorded.

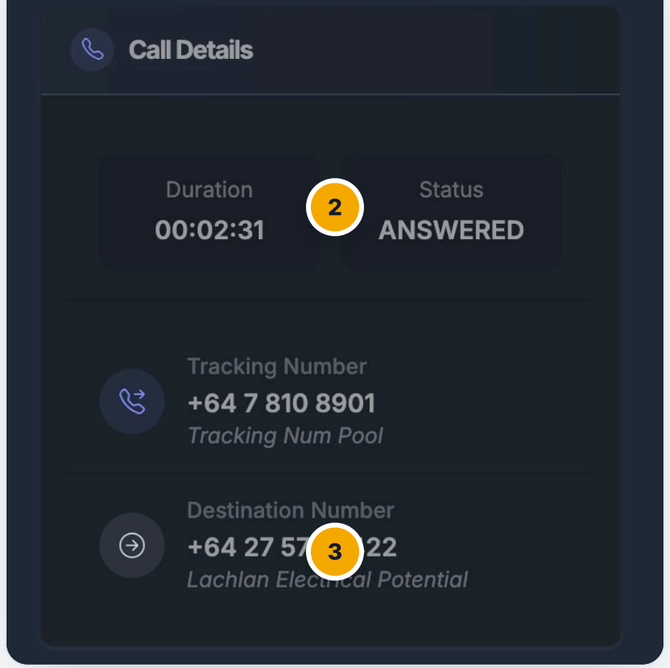

A dedicated tracking number sits on your ads and your page and forwards to your mobile. You see exactly what's coming through: when, how long, from where, and the recording.

01 · LIVE DASHBOARD

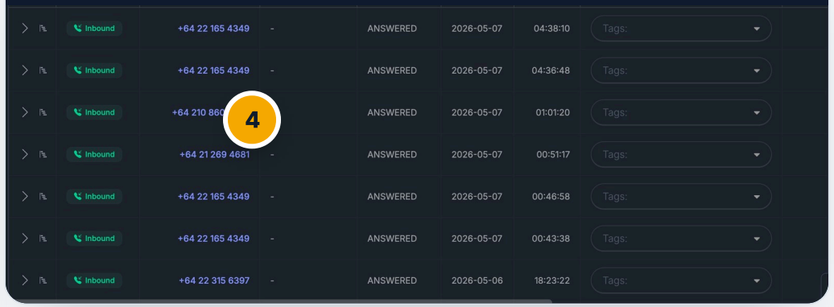

32 calls, 27 unique callers in 30 days, tracked across the whole campaign.

02 · CALL DETAIL

Duration, status, the tracked number and where it forwarded to.

03 · CALL LOG

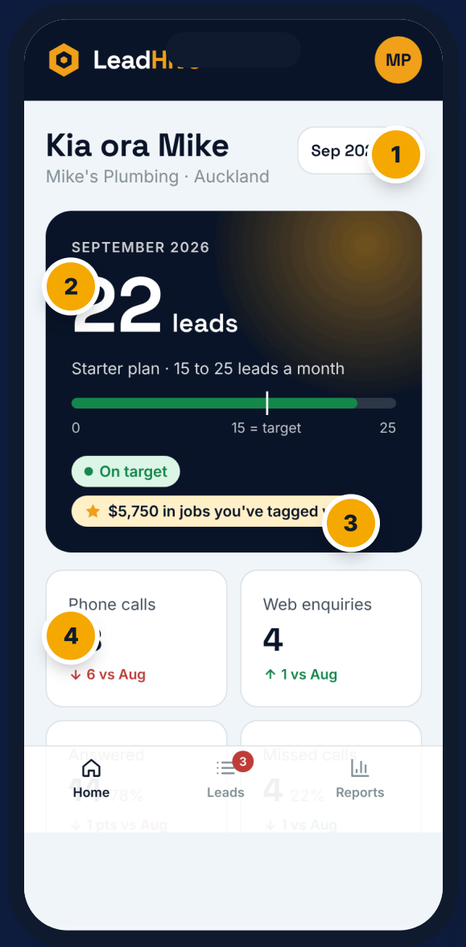

Every inbound call timestamped and marked answered or missed.

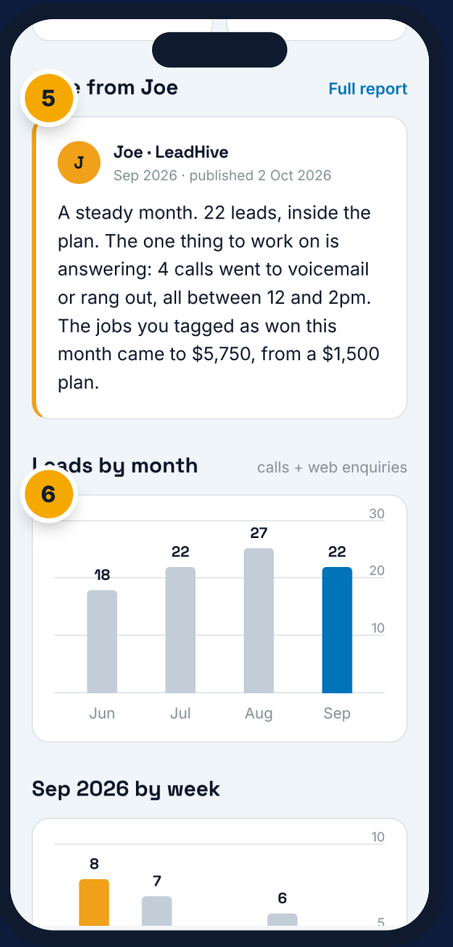

1. **Calls, minutes, unique callers**
2. **How long they talked**
3. **Forwarded to your mobile**
4. **Answered or missed, with a recording**

No more "did you get my call?" It's all there, in writing, with a recording.

Your own client portal. Every lead, every call, every dollar.

Log in from your phone and see the month at a glance: leads against your target, calls answered and missed, jobs you've won, and a note from Joe on what's changing.

1 Pick any month
This month so far, or any published month since you started.

2 Leads against your target
Calls plus web enquiries, with the meter showing where you sit against the 15 to 25 lead plan.

3 Jobs you've tagged won
The dollar value of the work you've marked as won. Your real return, in your own numbers.

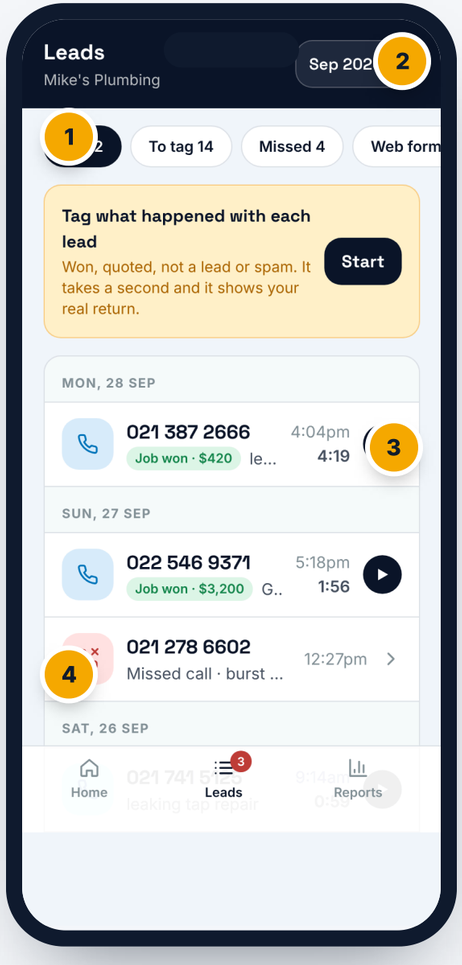

4 Calls, enquiries, answered, missed
Each one compared with last month, with the average call length.

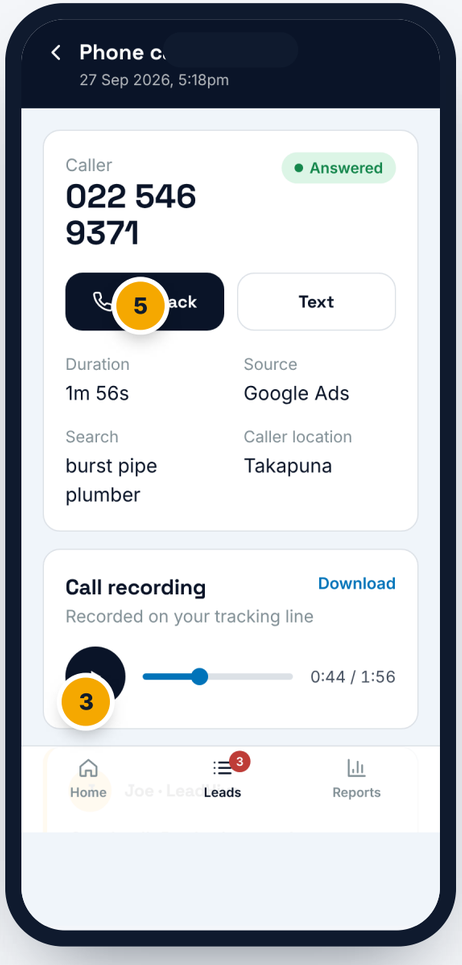

5 Note from Joe
A plain-English summary every month and a link to the full report.

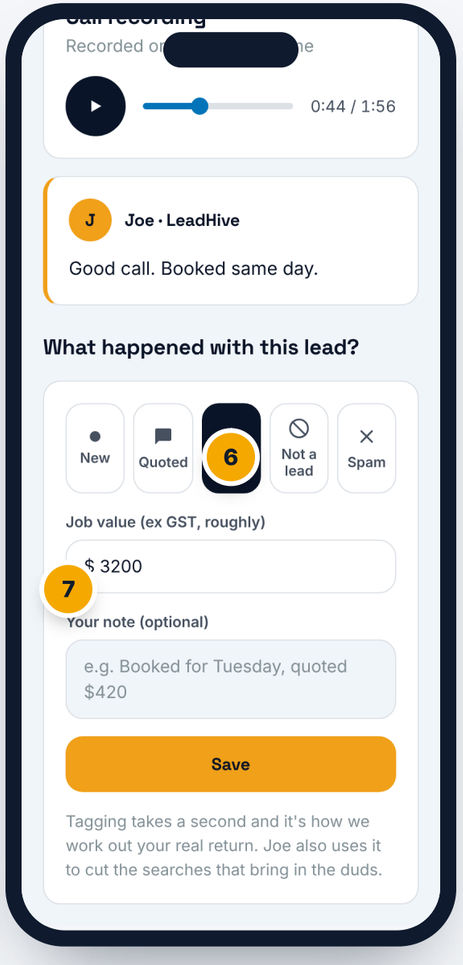

6 Leads by month and by week
See the trend since you started and which week was busiest.

Every lead in one list. Tap it, hear the call, tag the outcome.

Calls and web enquiries grouped by day. Each one opens with the recording, what they searched, where they called from, and a one-tap way to say what happened.

1 Filters that matter
To tag, missed, web forms, recorded, won. Find the ones that need a call back in seconds.

2 Pick a month
Every lead from every month you've been with us.

3 Play the recording
Hear exactly what was said. Great for training the team and checking quotes.

4 Missed calls flagged
Red tile, with what they searched. Most of these are recoverable with a call back inside 10 minutes.

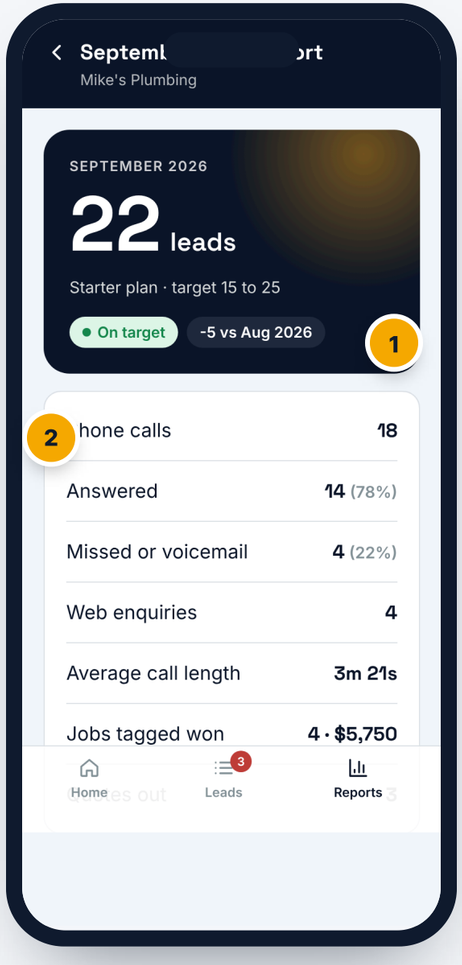

5 Call back or text
One tap from the lead itself.

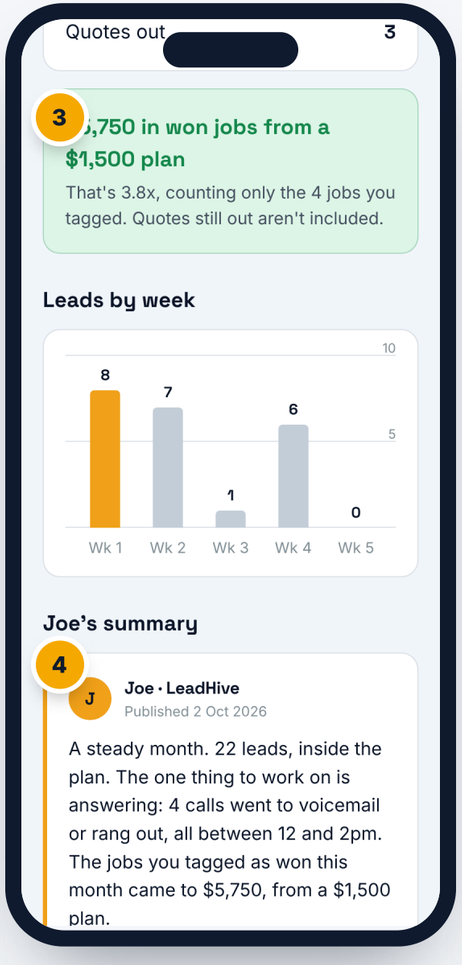

6 Tag what happened
Won, quoted, not a lead or spam. Spam is left out of your numbers.

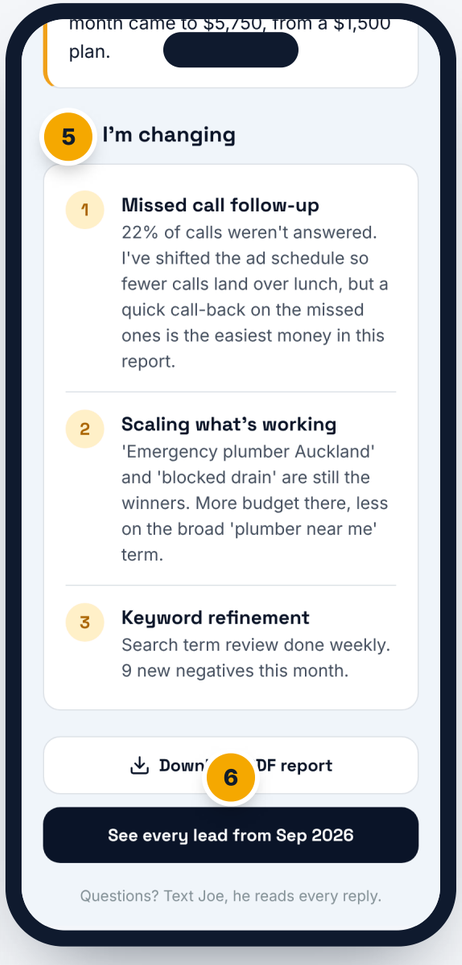

7 Job value
Rough job value on the ones you win. This is how the portal works out your real return.

A monthly report you'll actually read. Written by Joe, not a dashboard.

At the start of each month your report is published in the portal: the full breakdown, your return on the plan, what worked and what's changing next month.

1. **On target, and how it compares**
   Against your plan and against last month.
2. **The full breakdown**
   Calls, answered, missed, web enquiries, average call length, jobs won, quotes out.
3. **Your return on the plan**
   Won jobs against your monthly fee, counting only what you tagged.
4. **Joe's summary**
   What happened this month in plain English.
5. **What I'm changing**
   Three concrete things for next month: keywords, budget, ad schedule, your answer rate.
6. **PDF to keep**
   Download the report or jump straight to every lead from that month.

Real partners. Real jobs.

A few examples from partners already in the hive. Different trades, different regions, same system.

CHRISTCHURCH PLUMBER · FIRST 28 DAYS

One plumber. One landing page. Real jobs every week.

33	27	$0
CALLS TRACKED	ANSWERED	EXTRA SPEND

- Live within 24 hours of signing. Calls from day one.
- Every call timestamped, recorded and forwarded straight to his mobile.
- No middleman, no missed jobs, no extra spend above the plan.

JOBS BOOKED

Burst pipes · Blocked drains · Hot water failures · Leak detection · Overflowing pipes · Water tank repairs · Installs

$20,000

OF WORK GENERATED

Auckland builder

Planned-intent campaign. Decks, renovations and repairs quoted off the landing page form and the tracking line.

$13,000

OF WORK GENERATED

Wellington sparky

Emergency and same-day electrical. Calls straight to the van, tracked and recorded.

These are results, not a promise. The tradies above have been established in their areas for years and close well on the phone. Every trade, area and month is different, and what you make from the leads depends on how fast you answer and how you quote.

A single closed job usually covers the whole monthly fee.

Rough maths on 15 to 25 leads a month. Plug in your own callout value and close rate.

Trade	Avg callout value	Leads / month	Potential revenue	Against $1,500 + GST
Emergency plumber	$200–$450	15–25	$3,000–$11,250+	**2x–7x**
Electrician	$200–$500	15–25	$3,000–$12,500+	**2x–8x**
Roofer	$300–$1,200	15–25	$4,500–$30,000+	**3x–20x**
Builder / handyman	$250–$2,500	15–25	$3,750–$62,500+	**2x–40x**
HVAC / heat pump	$200–$600	15–25	$3,000–$15,000+	**2x–10x**

Why the portal matters here

You tag the jobs you win with a rough value, and the portal shows your actual return on the plan every month. No guessing, no "I think it's working".

Your answer rate is the lever

Emergency callers ring the next result if nobody picks up. Partners who answer, or call back inside 10 minutes, get the most out of every lead.

*Revenue ranges assume a 20% close rate on 15 to 25 leads and are illustrative only. They are not a guarantee of results.

One package. Everything included.

$500 + GST setup fee. Three-month minimum term, then month to month. First month billed on go-live.

- **Exclusive.** One trade per area. Your competitors can't buy in.
- **Live within 24 hours.** Sign up today, campaign and page live tomorrow.
- **No lock-in after three months.** Stay because it works, not because of a contract.
- **Direct line to Joe.** Text him. He reads every reply.

EXCLUSIVE PARTNERSHIP

STARTER

$1,500 + GST

per month · NZD

$800 ad spend included · 15–25 leads a month

- Google Search Ads fully managed
- Call tracking and call recordings
- Lead notifications by email and SMS
- One service area, exclusive to you
- Dedicated landing page built for you
- Client portal: leads, recordings, tagging, reports
- Monthly performance report from Joe
- Direct line to Joe

All prices NZD, exclusive of GST

From "yes" to your phone ringing in about a day.

1

HOUR 0–2

Quick onboarding call

A 15-minute call to lock in your service area, the jobs you want more of, your hours and your number. You don't do any heavy lifting.

2

SAME DAY

Landing page built

Your page goes up on our proven template with your name, number, area and job types. Built and shipped the same day.

3

WITHIN 24 HOURS

Ads and call tracking go live

Google Search campaigns launch. Your tracking number is live so every call is captured and recorded from day one.

4

DAY 1

Portal login arrives

An email with your login. Leads, recordings and notes show up in the portal as they happen. Tag what you win so your return is tracked.

5

FIRST 2 WEEKS

Optimisation phase

We tune bids, keywords and targeting on the early data, and cut the searches that bring in the duds.

6

ONGOING

Consistent lead flow and a monthly report

Your phone keeps ringing. We keep optimising. At the start of each month your report lands in the portal with what's changing next.

Ready to fill your calendar?

We only take on one trade business per area.
If you're seeing this, your spot is still available.

Get started · $500 + GST setup fee, first month billed on go-live
